PRESIDENT HUERTA WILL DEFY THE UNITED STATES; DECLARES THAT HE WILL CONTINUE AS HEAD OF MEXICO

MEXICAN DICTATOR APPEARS DETERMINED TO RETAIN PRESIDENCY AND TO CARRY OUT HIS PLANS OF INSTALLING SUBSTITUTE CONGRESS

General Asserts He Will Continue in His Efforts to Bring About the Pacification of Mexico---Meeting of New House of Deputies Reflects Chaotic Condition of the Country---One American Is Killed When Constitutionalists Capture Ciudad Juarez.

MEXICA CITY, Nov. 15.—Regardless of rumors and notwithstanding the insistence of far-seeing friends, General Huerta appeared more determined tonight than at any time during the past week to retain the presidency and carry out his plans of installing the substitute congress.

Huerta reiterated today that he continued to be the head of the Mexican government and the fact that he took no steps towards preventing the inauguration of the new congress as demanded by the United States, was construed at the embassy and the legations as indicative of what may be expected in the future. The representatives of the majority of the foreign governments appeared to believe that General Huerta has brought affairs to such a point that drastic action may be necessitated.

"Oh, no, I shall not quit," General Huerta said tonight. "I shall continue, just as I have been doing, to put forth my best efforts to bring about the pacification of the country and thus fulfill the promise I made on taking office."

It was suggested to the president that conditions might become such that foreigners, particularly Americans, would be in imminent danger.

General Huerta calmly agreed that this might be so, but added:

"In that case I shall do all I can to protect them."

The president thought a moment and continued:

"True, the rabble of the city might rise, but I would not hesitate to apply the severest methods in my power to restore order and punish the guilty. At any rate I am resolved to continue in the attempt to carry out my program of pacification."

The meeting of the new house of deputies today reflected the chaotic conditions brought about by the dissolution of the old congress. The minister of the interior, Manuel Garza Aldape, was expected to officiate at the opening but opposition developed among the newly chosen lawmakers and Gonzalo Zuniga, Senor Aldape's secretary, and himself a deputy appeared in his stead. Nominally for a few minutes he presided, but there was little of parliamentary form observed in what followed. One group called for one man, another ground for another man, to act as chairman.

In vain, Senor Zuniga called upon the deputies for order, insisting that they observe legal procedure.

"Don't talk to us of law!" cried Salvador Diaz Miron, editor of Imparcial and an ardent supporter of General Huerta. "What have we to do with law? We are greater than the law. The country is in a delicate position and it is our duty to proceed in the most expedious manner."

The controversy was ended with the appointment of Enrique Paz as president of the body who served the formal inauguration, Nov. 20.

Secretaries and a committee to examine credentials were then appointed and the session then adjourned.

All Members of Huerta's Staff.

The roll of deputies included all members of President Huerta's staff, the chief aide of the minister of war, the private secretary of the president, the private secretary of the minister of war, a large number of men more or less closely identified with other government officials and many well known detectives, who had been employed in the capital.

No disorders attended the preliminary session of the deputies. No troops were to be seen in the streets nor were any stationed in the building. There were few spectators but policemen and "plain clothes" men were always in evidence.

Except for the act that the Washington administration had said the congress must not meet the action of the chamber ordinarily would have aroused no interest as attention usually centers only on the formal opening.

Situation Is Serious.

Early today the seriousness of the situation appeared to be realized both by the officials at the palace and the people in the streets. If a time limit was fixed by Washington, in which Huerta had to make concessions, this was not known to the public and outwardly at least the situation had not changed from what it was yesterday afternoon.

Certain of General Huerta's friends with due circumspection, continued their efforts to persuade him to give in, but there was another group which was more open in its advice. These men urged the president not to concede to any demands but to proceed with bringing into existence his new congress—in short to defy the United States.

The cabinet was by no means agreed up the policy which General Huerta should followw.

Many Rumors Current.

Rumors that Huerta intended to prevent congress from meeting and even that he was willing to resign immediately without specifying who should be his successor, were current all day but equally current were rumors of a diametrically opposite character. It was argued by many that General Huerta was not so adverse to abandon his office as he was to leave the presidency without a clean bill of health. It was pointed out that should he resign without congress being duly installed, so that it might ratify the acts of his administration particularly those since the dissolution of the last congress, he would place himself practically in the position of a fugitive from justice.

Certain acts of the president, if not ratified by some lawmaking body is is claimed, were of such a nature that it bring upon him legal action at some future date.

Rebels Take Ciudad Juarez.

El Paso, Texas, Nov. 15.—For the sixth time in the last three years Ciudad Juarez changed governments when 2,000 rebels led by General Pancho Villa atttacked and captured the town between 2:30 and 5 o'clock today. Taken completely by surprise tht federal garrison of about 400 men put up a weak resistance.

So unprepared were the federals for the attack that Villa's troops actually reached the center of town before a single shot was fired. Although an accurate count has not been completed it is estimated that forty persons were killed in the fighting. The rebels lost five men, the federal dead is estimattd at thirty and four or five non-combatants were killed. Among them was Charles Seggerson an El Paso automobile driver who was on the main street in Juarez in his automobile.

oLoting Is oNt Allowed.

"No looting" was the order given by Villa to his men after the town had surendered and not a single case of theft has been reported. Guards were placed at downtown stores with orders to shoot the first man who attempted to loot.

The rebels took 125 federal prisoners, 95,000 rounds of ammunition, two field pieces and two machine guns—all i addition to an important border port of entry and a military strategic point.

General Francisco Castro, commander of the Juarez garrison, is among the missing. It is the general opinion he escaped. No trace of him or his body has been found. His sword and epaulets were found in his residence on Juarez avenue and General Villa has them for souvenirs. El Paso police this afternoon thought they had captured General Castro in El Paso but the prisoner proved to be a colonel from the Juarez garrison. He was sent to Fort Bliss a prisoner.

Boy Shot Through Hand.

Bullets fell thick in El Paso during the attack and Chester L. Burnett, a messenger boy, was shot through the hand while walking the streets in the early hours. Almost all the downtown business structures were hit by bullets. All El Paso was aroused by the firing and the streets were soon filled with people. Miraculously no others were struck.

United States troops took station near the international boundary and held the Americans away from the danger zone as much as possible while the battle lasted.

Order was quickly restored in Juarez after the capitulation and the street car service between El Paso and Juarez was resumed and Americans began to flock to the Mexican city. Little damage was done in Juarez, as the rebels had no cannon.

Villa assured Mayor C. E. Kelly of El Paso, that all Americans would receive protection. They met in the center of the international bridge at noon today and later Mayor Kelly accompanied Villa to the Juarez custom house and the new rebel headquarters where they talked for a few minutes. Mayor Kelly on his return ordered the bridges opened and traffic between the towns resumed.

Villa expressed regret that an American had been killed and declared that if the federals came from Chihuhua to attempt to re-take Juarez, he would meet them south of the town and prevent a battle that would endanger Americans in El Paso. He said he had destroyed the railroad to Chihuahua.

Dr. Frank W. Lynch, city physician of El Paso, said that he had seen the body of Colonel Enrique Portillo in the streets of Juarez this afternoon. Portillo was a federal commander and was made a prisoner. Captain Torres, another federal commander, was reported executed at noon today.

Believe Huerta Will Resign.

Washington, Nov. 15.—While official information from Mexico City today was meagre, the Washington government maintained tonight its confidence that Provisional President Huerta soon would be eliminated from the situation. The steady pressure through diplomatic channels, the financial blockade and the practical certainty that the embargo on arms will be lifted unless Huerta yields, are expected to force retirement of the provisional president. How soon this would occur, no official would predict.

Neither at the white house nor at the state department was there any disposition to regard seriously the statement issued from the national palace at Mexico City declaring that "in view of Venustiano Carranza's repudiation of any form of mediation by or alliance with the United States, Provisional President Huerta can do no less than join him in his expression of patriotic sentiment and maintain unaltered his dignified attitude toward Washington."

While on the surface this statement gave the impression that the United States had met with a rebuff in the diplomatic camps of both Mexican factions, administration officials conversant with details of the inner situation construed it merely as an attempt to meet temporarily the arguments of expediency being urged upon Huerta by close friends. The declaration first from Carranza, that he would not accept mediation by the United States and reiterated by Huerta caused no concern here, for the Washington government maintains it never offered to mediate. Carranza's utterance was not misunderstood by the Washington government for inasmuch as he had appealed to the United States to lift the embargo on arms and a special envoy had gone to his headquarters to discuss the situation, the necessity of showing his followers that he does not intend to surrender the sovereignty of his country by negotiation with any foreign government was taken into full consideration here.

HEIR TO AUSTRIAN THRONE WILL BE GUEST OF KING GEORGE

Archduke Ferdinand Will be Entertained by King and Queen of England.

London, Nov. 15.—Archduke Francis Ferdinand, heir to the Austrian throne and his consort, the Duchess of Hohenberg, arrived in London today. They will remain here until Monday when they proceed to Windsor Castle as the guests of King George and Queen Mary.

The archduke and his wife, although frequent visitors to England as private persons, have never been here "officially" and even this visit is not an official one for as the duchess is not of royal birth she cannot be placed on an equality with her husband at royal functions.

Now that the archduke is, on account of the great age of the emperor of Austria, believed to be within reasonable distance of the throne, the governments of Europe are anxious to show some attention to him and his wife. Emperor William as the ally of the emperor of Austria has frequently done this and now that there is nothing incompatible in the interests of Austria and England, King George is anxious to do the same. Hearing that the Archduke and Duchess were to visit the Duke of Portland at Welbeck Abbey, the king asked them to pay a visit to Windsor and enjoy some pheasant shooting in the royal coverts before going to Welbeck. The invitation was immediately accepted. The archduke, who as inspector general of the Austro-Hungarian army and navy is virtual war-lord of the dual monarchy, looms large in all considerations of European politics. His ascent to the throne is looked forward to with some uneasiness.

WANTS A HITCH LOT.

A gentleman from the south part of the county was complaining yesterday of the fact that there is no free hitching place for people when they come to the city to remain a few hours. He didn't exactly want to go back to the good old days when there was a rack with a mudhole in wet weather all around the square and feed scattered over the ground but he did think it would add materially to the attractions of the place if there was a decent free place for hitching as he says is the case in all the smaller adjacent towns.

FIRE THREATENS UNIVERSITY BUILDING

STUDENT DENTISTS AND PATIENTS ESCAPE FROM BUILDING UNHARMED

Blaze is Confined to Quantity of Oakum Stored in Basement of Northwestern U. Building and Gives Out Such a Volume of Smoke That Twelve Companies of Firemen Are Called to the Scene.

CHICAGO, Nov. 15.—Between four and five hundred men, women and children fled by fire escapes here this afternoon when fire attacked the old Tremont House, now the Northwestern university building at Lake and Dearborn streets.

That there was no loss of life was due to precautions taken when the historic old six story hostelry was converted into an office building with quarters for the law and dental departments of the university. There were three fire escapes of the most approved modern design and elaborately protected elevators and elevator shafts.

Three hundred dentist students and one hundred patients mostly women and children were on the sixth floor when one of the woman patients, seeing smoke rolling through an open transom cried "fire."

Some of the patients were under the influence of gas, but the students did not lose their presence of mind. Restoratives were administered and the patients assisted to the escapes where the cold air brought them back to full consciousness.

When Dr. C. R. E. Koch, secretary of the dental school heard the alarm he knew there would be a rush to the big loft over the sixth floor where the wardrobes are. He reached the stairway leading to it ahead of the students and warned them back.

The money loss by the fire will not be large as the blaze was confined to a quantity of oakum stored in the basement. This gave out a volume of smoke so great that the big building was soon choked with it and twelve companies of firemen were called to the scene.

YOUNG WOMEN REFUGEES TELL OF MANY HARDSHIPS

Fled From Mexico When Rebels Captured Torreon—Parents Failed To Escape and Have Not Been Heard From.

St. Louis, Mo., Nov. 15.—Three young women refugees from Mexico who arrived here tonight described hardships suffered by Americans in flight. The refugees are Misses Julia, Lillian and Flora Severin, sisters. They fled from Torreon in the state of Coahuila and came to St. Louis by way of New York. Their parents, Mr. and Mrs. R. H. Severin, formerly of St. Louis, failed to escape when the rebels took Torreon and have not been heard from since.

Describing their flight the girls said they traveled in a box car and were fifteen days making the trip from Torreon to the border, which ordinarily is made in thirteen hours. The train was attacked by the rebels they said, but the insurgents let them pass through their territory unmolested.

DIAMOND MERCHANT ROBBED OF JEWELS

CHICAGOAN IS RELIEVED OF $35,000 WORTH OF GEMS

L. Grossman Tells Police He Believes Robbery Was Committed Just Before His Train Entered St. Paul—Bag of Diamonds Is Taken From Beneath His Pillow—Robbery Leaves Him Practically Penniless.

MINNEAPOLIS, Minn. Nov. 15—L. Grossman, a Chicago diamond merchant, notified the police of Minneapolis and St. Paul today that he was robbed of diamonds valued at $35,000 while on board a Chicago Rock Island & Pacific train while coming from Davenport, Ia., to St. Paul. He said he believed the robbery was committed just before reaching St. Paul this morning. He declared that he saw no suspicious looking characters on the train and could give the police no clue. He furnished the police with a list of the diamonds and their weights.

Is Left Without Funds.

St. Paul, Minn., Nov. 15.—L. Grossman, the Chicago diamond merchant who was robbed of $35,000 worth of diamonds on a train before it entered the Twin Cities early today, told the police tonight that the robbery had left his practically penniless.

"I am without funds," he said.

Private detectives and Twin City police are tonight searching for the thieves and a reward of $5,000 has been offered for their arrest. Grossman said he left Chicago Tuesday night, made a trip through western Illinois and northern Iowa and spent Friday in Davenport. He spent last evening talking with other passengers on the train and retired at ten o'clock, he said, placing the bag of diamonds, beneath his pillow. When he awakened this morning the bag was missing.

Grossman told the police that he requested the train crew to search all passengers but his request was refused.

PASSENGERS ARE ALL SAFELY TRANSFERRED FROM BURNING SHIP

Freighter Balmes is Not Deserted by Crew and Expects to Reach Bermuda This Morning.

New York, Nov. 15.—A late message from the commander of the Pannonia said he had reached the side of the freighter Balmes, the ship that called for help because of fire on the evening of November 13, and remained with her all night. By daylight all of the 103 passengers had been safely transferred. To reach the burning vessel the Pannonia had to steam 180 miles south. The Balmes had signalled by wireless: "Am on fire, require assistance."

This afternoon the Pannonia was steaming toward Bermuda at an average speed of eight knots and at 10 a. m., New York time, was 200 miles east of the island. The fire was still raging on the Spanish liner but her crew stuck to her. The Cunard line office received a message tonight from Captain Capper of the Pannonia saying he expected the two vessels would reach Bermuda about 10 o'clock Sunday morning. After conveying the Balmes' passengers safely into port Captain Capper said the Pannonia would start for New York with the rescued passengers. The Pannonia is expected to reach here sometime Tuesday. Captain Capper in his letter message reported that the fire still continued to rage on board the Balmes, which, however, was proceeding under her own steam. The captain and crew had not consented to leave. The ship's condition was declared as still critical.

DISCUSS COLORADO COAL MINERS' STRIKE

SEEK FEDERAL INVESTIGATION OF CONDITIONS IN STRIKE DISTRICT

Delegates of American Federation of Labor Convention Adopt Resolution For Federal Probe—J. H. Walker Asserts Mine Owners Fear Congressional Investigation.

SEATTLE, Wash., Nov. 15.—The Colorado Coal Miners' strike was a subject of debate on the floor of the subject of debate on the Labor convention today, and a resolution was adopted instructing the executive council to co-operate with the United Mine Workers of America in obtaining a federal investigation of conditions in the strike district.

John H. Walker of the United Mine Workers, who said that congressional investigation of the Colorado situation was the thing the mine owners feared most and which the miners desired above all. Through the aid of Representative Mann the mine owners had been able thus far to avert a congressional investigation in Colorado, said Walker. The West Virginian investigation had resulted in great good. Although it had not brought the mine workers everything they wished, it had given them ground from which to continue the fight.

A resolution condemning the proposal of penny postage, as being in the interest of large manufacturers and mail order houses, rather than of the people as a whole, was unanimously defeated.

The convention condemned the ruling of the judge advocate general of the army, under which civil service employes of the quartermaster department were dismissed, and the federation declared itself opposed to the principle of extending military enlistment to classes of work non-military in character.

The convention endorsed an congressional bill establishing a minimum wage of not less than $3 a day for civil service employes and also the Lewis bill, for reclassification of the wages of postoffice clerks.

GARRISON ASSERTS PEOPLE DO NOT REGARD ARMY PROPERLY

Secretary Declares People of the United States Have Not the Feeling Toward the Army They Should Have.

New York, Nov. 15.—Secretary of War Garrison declared at a dinner given in his honor at the Lotus Club tonight that the people of the United States as a whole did not regard the army in the proper attitude and not feel toward it as they should. The secretary made his statement in discussing the effectiveness of the army even in time of peace. He spoke in high praise of the morale of the army.

DECIDES AGAINST INSURANCE COMPANY

Appleton, Wis., Nov. 15.—Water is a real object, according to Judge T. H. Ryan who today ruled against an insurance company which refused to pay W. F. Wettengill $850 damages to his automobile caused by the machine running into the Fox river at Green Bay, when Louis Kirchner was killed, several months ago.

The insurance company held that water was not an object covered by the policy. The court decided in favor of Wettengill. The case will probably go to the supreme court for final ruling.

CHICAGO WOMAN IS COMMANDER IN CHIEF

Chicago, Nov. 15.—The sixtieth annual convention of the Daughters of the Grand Army of the Republic concluded here today with the election of officers. DIVER IDENTIFIES OVERTURNED VESSEL

Reveals Name of Mysterious Derelict in Lake Huron as the Charles S. Price of Cleveland

IN WATER NEARLY AN HOUR

Diver Is Convinced That a Combination of Unusual Circumstances and Not a Collision Caused the Sinking of the Steamer

BODIES CONTINUE TO WASH ASHORE

PORT HURON, Mich., Nov. 15.—The fixing of the identity of the overturned steamer which has been a serious menace to navigation in Lake Huron for almost a week, as the Charles S. Price of Cleveland, was the principal development in today's aftermath of the storm which swept the great lakes last Sunday and Monday, destroying nearly a score of vessels and wiping out more than 150 lives.

William H. Baker, a diver, revealed the name of the mysterious derelict. Baker was in the water nearly an hour and when he came up he was firm in his belief that a combination of unusual circumstances and not a collision caused the sinking of the vessel. No additional information was received today concerning the other missing vessel. Bodies continue to be washed ashore on the Canada side of Lake Huron but identification of them is slow and difficult.

LIQUOR INTERESTS WILL TEST VALIDITY OF SUFFRAGE LAW

Recent Local Option Elections Which Were Won By Prohibitionists By Votes of Women, Will Be Contested.

Chicago, Nov. 15.—An immediate test of the validity of the Woman's suffrage law is to be made by the liquor interests became known here today.

The recent local option elections at Metropolis, Massiac county, Baldwin and Perry in Randolph county and Pinckneyville, Perry county which were won by the Prohibitionists by the votes of women, will be contested. It will be claimed girls 18 years old voted, making the elections illegal and that the male vote favored the saloons.

The votes of women today defeated a proposal to issue $250,000 worth of bonds at Evanston for an addition to the high school.

The suffragettes wre lead by Mrs. Catherine Waugh McCullough, James A. Patten, former broker and several bankers actively campaigned for the bond issue.

ENGLISH AVIATOR OUT DOES FEAT ACCOMPLISHED BY FRENCHMAN

Englishman Flies In Aeroplane 35 Seconds With His Head Downward and Makes Four Loops.

Versailles, Frances, Nov. 15.—Flying head downward and turning somesaults in the air are becoming common in the French aviation field. Hanouille, a French aeroplanist flew over the aviation field here today for twenty seconds with his machine up-side-down and then cut two vertical circles in the air.

Hucks, an Englishman declared he would outdo Hanouille and flew 35 seconds with his head downward and accomplished four consecutive loops.

SHIP CANNOT BE SAVED.

Calumet, Mich., Nov. 15.—The Steamer Turrett Chief, which went on a reef near Copper Harbor during the recent storm cannot be saved, her captain, T. Paddington, reported today on his return of an inspection of the wreck. Five hundred feet of shoal prevented the vessel from being reached.

The Turrett Chief is owned by the Merchants Mutual Line of Toronto.

LIGHT PLANT IN EAST MAKES FINE SHOWING

SOUTH NORWALK ENTERPRISE HELD UP AS EXAMPLE OF WHAT CAN BE DONE.

Is Cited by Commissioner Spaulding of Springfield in His Agitation For Increased Electrical Equipment in Capital City—Plant Does Lighting in City of 9,000 and Has Made Fine Profit.

There are many scattered examples of municipal light plants which have been badly managed or have failed entirely but one reads, too, occasionally of plants managed by municipalities where excellent showings have been made. A recent issue of the American City Magazine gives a description of a conspicuous example of success in this line, a plant located at South Norwalk, Conn., which completed twenty years of operation not long since.

Commissioner Willis Spaulding of Springfield, who is leading a fight there for the purchase of more electrical equipment and the uniting of the light and water plants has referred to the South Norwalk plant as an example of what can be done with a municipal plant properly managed. South Norwalk has a population of about 9,000. The article mentioned reads in part as follows: :

A Notable Record Made.

"The record of this enterprise has been notable from the start. When the city determined early in 1892 to erect a plant for lighting its own streets, the committee in charge of the work estimated the cost at $22,500. Bonds to that amount were issued but when the plant was complete and the lights turned on only $20,000 had been expended.

So satisfactory was the service during the five following years that in 1897 the city appropriated $20,000 for the enlargement of the plant for commercial service. Subsequent enlargements were made in 1900, 1903, 1905, 1907 and 1910.

"From a preliminary report for the year 1912 submitted to the mayor and council by the board of electrical commissioners the following extracts are made: 'The continuous good fortune that has ever guided this department has not been enabled it to entirely eliminate its floating debt as you know, but has created a sinking fund of $20,000 in addition which is now drawing compound interest at 4 per cent. Thus the 1896 issue of commercial electric bonds amounting to $20,000 is taken care of and the only debt remaining against the plant at this date is the loan of $25,000 for which the cov was bonded to establish its original street lighting system in 1892 from which the plant as it is today and its beginning.

Plant Has Shown Big Profits.

"At the gratifying ratio of profit which the plant is at present accumulating if not hindered by unexpected setbacks and sinking fund will also cover this final debt of $22,500 in about one year more, leaving the undertaking free and clear to the city. As the total investment in the electric works is nearly $200,000, it is thus apparent that within the past fourteen year, he profits from the electricity which his ciy has manufactured and sold to its lighting and power patrons at the lowest rates in this state has paid about $175,000 of this investment since the city entered into the business of supplying electricity for the commercial and domestic needs of its people in 1898.

"The fact that the little plant over whose fate many wise heads were shaken in its tender days has so nearly paid for itself without having cost its citizen owners one cent of taxation; having been built on borrowed capital, paid back and augmented by its own earnings, is a happy condition so near the hoped for realization as to afford every one who rejoices in being a citizen of our splendid progressive city good reason to join us in solemn thanksgiving.

What the plant is to the people of South Norwalk know pretty well, realizing that for many years it has stood between them and higher rates for lighting and power; that it has done something toward attracting industries this way and some of them believe that it could be sold today for more than it has cost, perhaps for enough to cover the whole city debt exclusive of the water works whose separate debt like the plant's is but a small part of its market value.

Description of Equipment.

"The power house of the South Norwalk Electric works is a substantial structure, practically fireproof one and a half stories high, the main building being 48 by 109 feet. All floors are concrete except the boiler room which is of brick with stone flagging in front of the boiler. In the boiler room are four 125-horse power return tubular boilers, all equipped with water arches. The massive brick chimney rests on bed rock; in its base is a fire-proof vault for city records. The engine room contains two Worthington and two Gould pumps, four 100 and one 255 horse power Watertown high speed steam engines and three 225 horse power Diesel fuel oil engines; also two Crocker-Wheeler motors. Each engine is directly connected to a 250 volt D. C. generator, of the Siemens & Hiske, Eddy, Brush or Fort Wayne type. The three Diesel engines are each equipped with a Norwalk air compressor driven by a 25-horse power general electric motor. Under the shed east of the drive is a 3350 gallon fuel oil storage tank.

Result of Efficient Management.

"Perhaps the most important lesson to be learned from the success of municipal ownership in South Norwalk is the great value of efficient management and supervision. The citizens realize that under other conditions their electric plant might have made the kind of showing which has brought discredit on many municipal undertakings; but the efficient and profitable operation of this plant over a period of twenty years has demonstrated the benefits which a city may derive from its public utilities if properly administered. For this record of achievement the people of South Norwalk give chief credit to general superintendent, Albert Edward Winchester, one of Edison's early helpers who designed the original plant in 1892 and who has supervised its growth and operation ever since."

"SAPHO"

The Only Version Authorized by Alphonse Daudet, From His Novel of the Same Name.

The manager of a Philadelphia theatre writes: "My theatre seats over 1600 people. Sapho is the most beautiful moving picture I have ever seen. We were forced to call out the police to keep the crowds in line. They stretched solid for over a block—and until we closed down at midnight, I showed to standing room only."

"With Sapho I broke my box office records for the year. Crowds were lined up till nearly midnight trying to get in."

Opportunity knocks often at your door, BUT NEVER like this ROYAL CHANCE to see the most talked of, the most powerful play ever produced. Everybody knows about this soul-stirring play. Everybody knows about the furor it kicked up. Everybody will go to see it. This is YOUR opportunity to see this $20,000 production in 4 reels

"Sapho" will be to Filmdom what "Damaged Goods" is to the stage—Both are great moral lessons.

"SAPHO," denounced at the time of its writing—in an age of prudery—as sensational, is now everywhere recognized as a great moral lesson. It is bold in its treatment of the facts-of-life, but the boldness is for the best. Alphonse Daudet, the author, dedicated "SAPHO" to his sons, so that they might remember and be guided by its lesson. Turn out your sons to see this tremendous morality film, and your daughters, too! Let "SAPHO" be to filmdom what "Damaged Goods" is to the stage.

WOMEN WILL STUDY— THEN VOTE

An organization of the women voters of Jacksonville precinct was formed Saturday with the purpose in view of having its members take an active part and intelligent interest in the affairs of the community. It is proposed to keep the organization absolutely free from political alignments and to meet and study civic problems as they are presented. While the association will work for an extension of suffrage rights its members will devote themselves largely to local problems. The women are evidently assuming the fuller rights of citizenship with a feeling of serious responsibility and with a desire to act well and wisely in helping to decide the problems which will be presented to the voters from time to time.

On the question of local option which was recently presented the women and clear and well defined views without a great deal of study. On other matters which are likely to come up for consideration they are not nearly so well informed. One of the leaders in the movement indicated the serious spirit which prevails among the new voters when she said yesterday that if the women flocked out at any early date to vote on any question likely to present itself that she would feel disappointed. The speaker undoubtedly meant that such a vote on any other question would indicate that the women were hurrying to help settle questions which they had not thoroughly investigated.

WILL HELP THE FARMS.

At a public sale in Morgan county one day recently a milk cow sold for $125. She was a very good cow but not an extraordinarily fine one at that and the price paid indicates that the cow is just beginning to come "into her own" in Morgan county. The fact is significant in its relation to soil fertility and betterment for it indicates that the farmers of the county are beginning to realize that more attention to dairying will make them more money for the present and will insure a gradual betterment of soil conditions.

A well known farmer and stock man who is paying some attention to dairying in answer to the question as to why he did not bring in a car load of cows to meet the growing demand for them said "Well the farmers are only beginning to learn here that good cows mean higher prices and are hardly ready to pay the prices. In localities where dairying has received attention for years it is nothing unusual for a cow to sell at $150 and the average farmer here would stand aghast such a figure. But as the quality of cows in Morgan county improves such prices will become the usual thing.

The establishment of the Jacksonville Creamery has tended to increase interest in dairying hereabouts and the fact that Swift & Co., will not many weeks in the future open their modern creamery department will have a still further tendency to increase interest in this important branch of industry. Dairying cannot be overdone in Morgan county.

Garland & Co., have a big variety of bath robes and smoking jackets rightly priced.

Do Your Washing and Wringing Without Working

Don't waste your time and strength in useless toil. Washing is, without doubt, the dirtiest, hardest, and most disagreeable part of your work when done in the old style way. Why should you continue to cling to the obsolete methods of washing clothes when a Meadows Family Power Washer will do all the **work for you—you do the operating.** The

Meadows TRADE MARK REGISTERED **Family Power Washer**

is furnished with belt pulley for engine power or electric motor for electric power. It is a practical machine for both city and country housewives. Fill the machine tub full of dirty clothes, close the lid and the Meadows starts working. **While clothes are being washed you can go about doing the rest of your housework.** When clothes are clean it is an easy matter to wring them with a Meadows—just press your foot on the ped l and the wringer starts. With the foot pedal control you have both hands free to feed the wringer and at the same time have perfect control of wringer. Wringer works at any of the tubs. Just think, each piece is generally wrung three or four times, wouldn't it be grand to do all this wringing without working? Come in and see how easy it is to do a big family washing with a Meadows Family Power Washer.

SURPRISE PARTY AT HOME OF ISAAC WATSON

Friends Gather to Pay Honor to Well Known Farmer.

Isaac Watson was treated to a most pleasant surprise by a company of his neighbors Saturday evening at his home six miles south of the city. Laden with refreshments, including oysters, the company took Mr. Watson entirely unawares and proceeded to make themselves at home. As a token of their esteem they had brought with them a handsome rocking chair and a pair of leather slippers. The gifts for their host were presented through their spokesman, Thomas Buckthorpe, who spoke eloquently of the high esteem in which Mr. Watson is held in the community. Every one enjoyed himself thoroughly, doing justice to the refreshments at the proper time. Among those who took part in the surprise were Henry Scott and family, Charles Taylor and family, Geo. Barnhart and family, James Winter and daughter, John Harding and family, John Casey, John Hembrough, Earnest Harding, Len Watson, C. E. ATTACKS PHILIPPINE POLICY OF WASHINGTON ADMINISTRATION

Former Secretary of the Interior of the Philippines Predicts Ruin for the Islands if Liberty is Granted Filippinoes.

San rFancisco, Cal., Nov. 15.—Mail arriving today from Manila brought a copy of the farewell speech of Dean C. Worchester, former secretary of the interior for the Philippines, delivered at a banquet there October 13, in which he attacked the Philippine policy of the Washington administration and predicted ruin for the islands if liberty were granted to Filippinoes.

Summing up his belief of what Philippine independence would mean, he said:

"Turn the country now, or ten years from now, to Filippinoes to govern and the reputable business men mindful of Agunialdo's demand for his share of the war booty when Manila was taken; of the attempted confiscation of the lands of the religious orders and from the Spanish citizens generally; of the proposal to take foreigners as such; of the torturing of Frairs, other Spaniards and other Filippinoes as well in order to extort money from them; of the widespread brigandage, the officially authorization and direct murdering and the burying alive which prevailed during the period of undisturbed Filipino rule will hold theid tents like the Arabs and quietly steal away. There will remain that peculiar class of business men, who as the Filippinoes put it, love to fish in troubled waters. They will not lack good fishing ground."

A POPULAR APPOINTMENT

Springfield News: Former Governor Richard Yates has received from Governor Dunne the appointment as a member of the Highway and Warehouse commission to succeed Bernard A. Eckhart of Chicago.

It is understood that when the governor names the members of the State Utilities Commission next January, Mr. Yates will receive an appointment to that commission.

The office to which he has just been appointed carries a salary of $6,000 per annum, and the members of the state utility commission will draw $10,000.

Governor Dunne will find that his appointment of Mr. Yates will have popular approval, not only from republicans of the state, but from thousands of democrats.

The new appointee is familiar with conditions, practically in every city, town and hamlet in the state of Illinois, and undoubtedly, he will apply himself to the work of the commission with characteristic zeal and assiduity.

With Yates, whatever he undertakes he masters, and his addition to the personnel of either the Railway and Warehouse commission or the State Utilities commission, will give strength and prestige to that department of the state work.

FOOTBALL PLAYER BREAKS LEG

Carl Pursey, son of Mr .and Mrs. Charles Pursey, who resides in Polk township, eight miles south of Carlinville, and who attends Blackburn college in Carlinville, suffered a broken leg in a practice game of football recently. WOMAN'S COLLEGE NOTES.

The juniors are making their plans for the publication of the college annual. It is the first time that this has been attempted by the students, but there is no doubt of the successful carrying out of the undertaking. The class officer for the juniors is Miss Mary Anderson.

A movement that will be far reaching in its effect if adopted by the students is what is known as student government. This was presented to the house students Friday night and will be voted upon by them in a few days. Practically all the eastern colleges for women have adopted the students' government idea and has been found most beneficial.

The academy teachers have sent in the mid-semester grades. These reports will be sent out immediately to parents and guardians.

Through the generosity of T. H. Buckthorpe, a new basketball has been given to the Atheletic association to be used in the work of the gymnasium. A hockey club has been organized and as soon as the sticks arrive work will begin along this line of activity.

Mrs. Charles Ridgley of Springfield has just presented the library with a valuable collection of art books.

The College Guild met Saturday afternoon in the society hall. This meeting included all the sections of the guild and was for the purpose of sewing for the bazar which is to be held early in December.

The lecture by Dr. Jacob A. Riis will be given on Friday, Nov. 28th, instead of Dec. 1st. This advance in date is in response to a telegram from Mr. Riis. The college is very fortunate in being able to have Mr. Riis come, as he has been obliged to cancel a number of eastern engagements, and is now at Battle Creek sanitarium. He begins his work again with the lecture here in Jacksonville. Those interested in his lecture may get tickets for same from the college office.

CHANCE MAKES DEMOCRAT COUNTY OFFICER.

The Grubb-Turner election contest for circuit clerk of Wayne county was decided by casting lots, Being Turner, Democrat, winning. In the election last November the returns gave the office to Mr. Turner by nine votes. William L. Grubb, Republican, contested the election. The probate court decided in favor of Grubb by three votes. Turner held office meanwhile on the face of the first returns. Turner appealed to the supreme court, which decided that the men had tied and ordered them to cast lots.

CHICAGO MAROONS WIN PREMIER FOOTBALL HONORS OF WESTERN INTERCOLLEGIATE CONFERENCE FOR 1913

CROWD OF NEARLY 25,000 SPECTATORS SEES UNIVERSITY OF CHICAGO ELEVEN DEFEAT MINNESOTA UNIVERSITY BY 13 TO 7 SCORE

Illinois University and Perdue Battle Through No-score Game---Oliphant Is Put Out of Game for Roughing---Michigan Proves Too Strong for Pennsylvania, Winning 13 to 0---Yale Holds Princeton to Tie Score---Harvard Makes Easy Work of Browns.

MINNEAPOLIS, Nov. 15.—Premier football honors of the western intercollegiate conference for 1913 tonight rest with University of Chicago by virtue of its 13 to 7 victory over the University of Minnesota on Northrup field this afternoon. Although the game was replete with flashes of individual brilliancy on the part of both winners and losers, credit for the victory must be practically equally apportioned among the Maroon players. Nearly 25,000 spectators saw the Chicago eleven breakdown Minnesota's defense in the first peiod. Within eight minutes of actual play, after a series of successful forward passes, Pierce, the Maroon fullback, scored the first touchdown from Minnesota's 2-yard line, where Norgren had placed the ball by a spectacular run of more than 25 yards.

After the first touchdown, Minnesota's defense strengthened and for the next two quarters neither team scored.

In the fourth period, Chicago executed two forward passes that brought the ball to Minnesota's 3-yard line. Captain Norgren then hit the Minnesota line for two short jamming gains, which gave Chicago their second touchdown. In the third period Minnesota, who heretofore had used straight football, opened up with a number of forward passes and fake formations which formed excellent ground gainers. At no time, however, did Minnesota dangerously threaten the Chicago goal line until after Chicago had scored its second touchdown in the fourth quarter.

Shaughnessy who was one of the most, if not the most brilliant individual player for Minnesota, was responsible directly for Minnesota's touchdown.

Shaughnessy broke up the Chicago defense and carried the ball to within a few inches of the Maroon's goal line, Solon then going over for a touchdown.

At this juncture Minnesota rooters put forward a splendid display of enthusiasm and their team seemed to respond vigorusly to this stimulus from the crowds.

After Solon kicked the goal, Minneota players began a desperate effort to tie the score but the Maroon defense held firm and it was a case of see-sewing for the remainder of the contest.

Snow No Serious Handicap.

A light snow fell after the hay covering had been removed from the field made the footing a trifle insecure, but did not seem to seriously handicap either team in the execution of forward passes or handling of punts.

Chicago ventured the first forward pass early in the game but not until the second period did one prove successful netting the maroons twenty-five yards. Minnesota attempted nothing but straight football during the first half and its two successful forward passes, one each in the third and fourth quarters totalled a gain of only 10 yards. Two completed forward passes by the Maroons in the fourth period, netted 59 yards, and made possible their second touchdown which was scored by Norgren.

Norgren's punts averaged greater distance than Shaughnessy's although each kicker generally booted the ball high enough to enable the ends to get down the field and prevent any considerable return.

Generalship honors fall to Russell the Chicago quarter back, whose selection of plays usually was opportune. In carrying the ball, however, he was rivalled by Lawler who replaced Tollefson at quarterback for Minnesota in the first period.

Play No Score Game.

Urbana, Ill., Nov. 15.—Illinois held Purdue to a scoreles tie today in a scrappy game before 8,000 "home-comers. The Boilermakers' star half back, Oliphant was ruled out of the game for roughing Graves and his loss proved a severe blow to the visitors. Heavy rains softened and dampened the ground so that fast play was impossible and both sides were guilty of many fumbles, the number being divided about evenly. Each team recovered just the same number of fumbles so they apparently had little effect on the result so far as victory for one-side or the other is concerned.

Until Oliphant was ruled out he was playing a great game for the Boilermakers. For the visitors O'Brien and Phelps also starred, while Captain Glosso was in every play. For Illinois Graves' work was the feature among the individuals, while Scobinger and Wagner shone among the backs and Chapman and Watson in the line.

The Line-up

Purdue	Position	Illinois.
Turner	r e	Derry
Usner	r t	Chapman
Routh	r g	Seibens
Bishop	c	Watson
Berns	l g	Fullerton
Blacker	l t	Pruitt
Stinchfield	l e	Graves
Buell	q b	Wagner
O'Brien	l h b	Rue
Glossop	r h b	Scobinger
Oliphant	f b	Rowe

Substitutes—For Purdue: McConnell, rg; Wilson, c; Montgomery, le; Finn, qb; Landis, Applegate, lmb; Landis, Phelps, fb. For Illinois: Wilson, re; Sneff, lg.

Referee—Magidsohn, Michigan. Umpire—Haines, Yale. Head linesman—Knight, Dartmouth.

Indiana Wins By One Point.

Evanston, Ill., Nov. 15.—Indiana defeated Northwestern today 21 to 20 in a rally in the last five minutes of play after the Purple seemingly had the game stored away. The failure of Whittle to kick goal after the third touchdown was responsible for the one point by which the Purple lost—Erhart kicked every goal for Indiana.

The innovation of numbering players was tried and pronouced a great success by newspaper men and spectators. Large figures fastened to the back of the Northwestern men's jerseys enabled the onlookers to tell quickly and accurately just "who was who."

Hightower was the star for the Purple. He made all three of the Methodist touchdowns and was the only efficient ground gainer. But Northwestern's line could not hold the Hoosiers and Hightower's brilliant work only balanced the poor work of his teammates. In the second period a series of line bucks and a forward pass putting Tightower in position to score the first touchdown, but Indiana evened it up when straight football sent B. Whittaker over the goal line. On the kickoff, Hightower ran the length of the field for the second Purple touchdown.

Nobody scored in the third but in the fourth Northwestern held the Hossiers for downs on the Purple one yard line. Forced to punt from behind the goal line the Methodist's kick was blocked and Winters fell on the ball for the second Indiana touchdown.

In a series of magnificent open field runs, Hightower gained 25 yards, 40 yards and then crossed the goal line, once more puting the Purple ahead. But Whittle's fatal miss followed and a serious attack by Indiana, consisting of straight football and one forward pass forced the ball to the purple line and the the final touchdown, made by Fleming Erhart kicking the deciding goal.

Yale Stronger Than Princeton.

New Haven, Conn., Nov. 15.—Rising Sphinx like from the ashes of a disheartening preliminary season the Yale football team forced Princeton, the 10 to 7 favorite to a tie score game at 3 to 3 in the annual contest here this afternoon. Guernsey for Yale kicked a field goal in the second period of play and Captain Hobey Baker tied the score for Princeton with a similiar but more spectacular feat in the third quarter. In the tie score however, does not show the marked superiority which existed in favor of the Blue. Player for player and team against team, the Blue was better than the Orange and Black in both offensive and defesive play. Yale adherents are saying tonight that holding the Tiger to a tie game was a moral victory for the Blue, but the veterans who made gridiron history for the Eli's in other years shake their heads sadly. They know that an actual and not a moral victory should have been won for Yale but for poor generalship and judgement in critical periods.

An analysis of the offensive and defensive play for the two teams shows the remarkable manner in which Yale outshone the players from the Jersey plans. By rushing Yale gained 139 yards in 44 plays to Princeton's 37 in 22 efforts. Three first downs were scored against the Tigers solitary gain in this respect. Thirty-five kicks netted 1,214 yards against 1,188 yards for Princeton in 33 kicks. Yale regained 180 yards by running back Law's punts while Princeton picked up but 143 yards in a similar manner. The Tigers tried three forward passes, two of which were incompleted and one intercepted; while Yale's lone attempt in this respect also went for naught, because of a fumble when a touchdown hung on the catching of the ball.

Errors Lose Game for Yale.

Despite the overwhelming superiority in all round team play, Yale could only win the credit for tieing Princeton in the yearly gridiron battle. Errors of judgement and individual slips at critical points robbed the team of much of its effectiveness and left the Blue with a still greater problem to face in the Harvard game next Saturday.

This in part was due to the fact that Wilson, formerly a fullback, was shifted to quarterback less than two weeks ago and is still more or less unfamiliar with the possibilities of the new possition.

To this and other recent changes in the Yale line, Princeton owes her escape from defeat, for brilliant streaks of play which advanced the ball to within striking distance of the Tiger's goal line went for naught, when some individual play or slip would nullify the work of the eleven as a whole. The most striking example came late in the final period, when after a series of punts the ball fell into Yale's possession on Princeton's forty yard line. Ainsworth behind splendid interferences circled Hammond and raced down the field to within six yards of the Tiger's line before he was thrown by Captain Baker.

It appeared as though Yale was to score its first touchdown against Princeton since 1910 and her adherents were cheering and shrieking encouragement and advice, 20,000 strong. The Tiger team, desperate, blocked two line plunges that carried the ball to the extreme right side of the field instead of toward the goal posts. A third attempt put the ball well inside the Princeton five yard line but so far to the right of the posts that a field goal was virtually impossible.

With about two yards to gain, Wilson made a perfect forward pass to Carter, who had slipped across the goal line, but the Yale right end fumbled and then dropped the ball in his excitment and went out of the game crying like a child a few moments later.

Twice during the closing period Guernsey attempted to duplicate his earlier field goal, each time within Princeton's 35-yard line, but failed. Once Ballin charged through the Yale line and blocked the rising ball and the ball sailed fully five yards to the left of the goal posts. These were conspicuous examples of the lapses in the Yale play.

Michigan Defeats Pennsylvania.

Ann Arbor, Mich., Nov. 15.—Using the same terriffic line attack that crushed Syracuse, the football eleven of the University of Michigan today defeated Pennsylvania 13 to 0.

Michigan simply battered the defense of the easterners to pieces. At no time during the game was Pennsylvania even dangerous.

Pennsylvania's attack was as erratic as her defense was mediocre. Now and then, at wide intervals, one of Brooke's men skirted a Michigan end for six or seven yards gain. Attempts to pierce Michigan's line were so unsuccessful during the first half that they were practically abandoned during the final period. Pennsylvania, the same as Michigan, gained little from forward pass plays. It was a distinct victory for old fashioned, sledge-hammer football.

There were few sensations. The greatest of these came during the first period when Michigan secured the ball in Pennsylvania territory. The Wolverine line-men opened big holes and the Wolverine backs did the rest. Craig, Galt and Hughitt seldom had to be content with gains of less than five yards and, finally, Craig crossed the goal line. Patterson kicked goal. One of the few forward passes successfully executed helped give Michigan a second touchdown.

The play was made during the second period. It was a toss from Hughitt to Lyons that netted 25-yards and it put the Yost men within striking distance of the blue and red goal. Craig crashed through tackle for a five yard gain which scored the touchdown. Patterson's attempt to kick the goal failed, the ball hitting the cross-bar.

Holding in the line cost Michigan a third touchdown. In the third period Paterson dropped back apparently to attempt a field goal. A trick play resulted however and Hughitt sprinted 30 yards for a score. The ball was brought back and Michigan was penalized fifteen yards.

Coach Brooke made a desperate effort to strengthen his eleven in the second half. He called on the crippled Minds to replace Avery at fullback and the fleet Marchall took Merrill's place at quarterback. Pennsylvania then shifted to the open game, on offense, using Minds to start forward passes but they were invariably unsuccessful.

More than 20,000 persons witnessed the struggle.

Millikin Wins 2 to 0.

Decatur, Ill., Nov. 15.—Millikin defeated Illinois Wesleyan here today on an extremely muddy field, 12 to 0.

Millikin scored in the first quarter on straight football. The second touchdown was made in the third period when McFarland fumbled an onside kick and Holcomb fell on the ball back of the line. Numerous forward passes failed. The game was called early in the fourth quarter account of darkness.

The lineup:

Millikin	Position	Wesleyan
Hoover, Capt.	le	Johnson
MacWherter	lt	MacFarland
Reeder	lg	Bailey
Hessler	c	Bolin
Catlin	rg	VonTobel
Barrackman	rt	Butler, Capt.
Delaney	re	Barnes
Wilson	qb	Elliott
Hemphill	lhb	Doocy
McDonald	fb	Bentley
Lee	rhb	Canfield

Substitutes—For Millikin, Holcomb for Hoover; for Wesleyan, Elliott for McFarland; Smith for Elliott; McFarland for Bently; Smith for Canfield; Callahan for Smith. Touchdowns—Hemple, Holcomb.

Nebraska Wins From Kansas.

Lawrence, Kan., Nov. 15.—The University of Nebraska football team defeated the University of Kansas here this afternoon by a score of nine to nothing in a game mostly straight, old fashioned football, played on a field ankle deep in mud, under a drizzle of rain. Both teams repeatedly made first downs but Nebraska's work at critical points in the game was the better. The northern players frequently circled the Kansas ends for good gains and the Kansas line again and again was shattered by the plunging Rutherford, Purdy and Howard, Nebraska's backs.

Iowa Wins By Big Score.

Iowa City, Iowa, Nov. 15.—The University of Iowa's football squad continued its high scoring career here this afternoon by defeating Ames 45 to 7. Iowa's seven touchdowns followed brilliant end runs by Dick and Gross and Captain McGinnes' smashing charges through Ames' lines. McGinnes repeatedly see-sawed through Ames' secondary defense for long gains after passing the forwards.

Dick sprinted 65 yards to a touchdown on the first play after the kickoff late in the first half. Ames then braced up. Uhl and Davis plunged the Iowa line and a 25-yard forward pass by Brennan to Cowan brought the Aggies their only score.

Iowa's line proved impregnable in the second half and Ames tried forward passes continuously. The score i sthe highest Iowa ever made against Ames.

Bucheit Scores Touchdowns.

Monmouth, Ill., Nov. 15.—Lake Forest University today defeated Monmouth College 14 to 0, the visitors scoring a touchdown in the first and fourth quarters. The game was desperately fought at all times but the charges of the Lake Forest backfield were too much for the Monmouth line.

Bucheit scored both touchdowns. He made the first one on a pass while the second was due to a false quarterback play.

In both the first and second periods, Monmouth had the ball close to the Lake Forest line, but could not get through the barrier.

Indians Too Fast for Dartmouth.

New York, Nov. 15.—The Dartmouth football team, hitherto regarded by many as the best eleven in the east was easily beaten this afternoon by the Carlisle Indians. The score 56 to 10 was even more one-sided than the figures indicate; for Carlisle's points all were due to straight, hard football. Dartmouth scored on a goal from the field and a forward pass that was caught and carried over the goal line. The Indians made five touchdowns after they had battered the opposing line into helplessness. Most of their gains came from plunges through guard and tackle.

Knox Loses To Beloit.

Galesburg, Ill., Nov. 15.—Beloit defeated Knox 14 to 7 today on a muddy field. Beloit scored first in the second period on a forward pass Fucik to Aldrich. Five minutes later Carrol of Knox got away on a forward pass from Scott and scored. Fairfield scored the second touchdown for Beloit on a forward pass in the last quarter.

Defeats Brown 37 to 0.

Cambridge, Mass., Nov. 15.—The Harvard football machine re-adjusted in essential points of attack and defense in preparation for the game with Yale was tried agaist Brown today and found in fine working order. Tht Crimson totalled 37 points holding Brown scoreless.

Missouri Defeats Washington.

St. Louis, Mo., Nov. 15.—The University of Missouri football eleven defeated the Washington team in their annual gridiron battle, the Tiger aggregation putting up nineteen points to none for the maroon squad.

NEW YORK GIANTS WIN.

San Francisco, Nov. 15.—Before a huge crowd the New York Giants downed the Chicago White Sox today by a score of 6 to 3. Pitcher Mathewson was in rare form except in the eighth inning when the Sox made four hits that netted two russ.

The score:

Chicago ....000 010 020—3 10 2
New York ...113 001 00x—6 11 0

LETTER FROM CHINA.
(By Associated Press.)

Brigandage in China has spread until some robber bands have assumed the dinity of small armies, They muster both foot and cavalry and are as large as two American regiments. No province is free from bandits. From Manchuria, where the Hunghutzes ply their trade, to Kwantung, infested by pirates, and from Kiangsu to Turkeston, come reports of freebooters who defy the autorities.

There is no local police to cope with the outlaws and the army is not at present a dependable branch of the administration. China is never free from brigandage, but it is only at periods of transition, when the authority of the government is shaken by political disorders like the recent rebellion, that the bands attain such large proportions.

The American misisonaries who fled from their homes in the interior of Fukien province are still at Foochow, unable to return because no potection can be assured by the government. The American consulate at Foochow and the legation in Peking have been trying in vain for several months to get the Chinese governemnt to take vigorous action against Hwang Liang, the outlaw, who proclaimed himself sixteenth emperor of the Ming dynasty.

A consular report from Shensi says that province is practically administered by outlaws, who work solely in their own interests. The governor adheres to the central government only because there is no interference from Peking and because it is good policy for him to describe himself as loyal. The governor, or tutu, as he is called, was a poor and unscrupulous official, but now he has amassed a large fortune and a numerous harem.

Theconsul gives an account of how the commanding general likewise obtained wealth and authority. Being appointed commissioner for the suppression of opium in the province, says the report, he started on a tour with a body of troops. He took the precaution always to send word ahea dannoucing his approach, a policy which, as is customary, brought fourth munificent presents from the people. If the presents were ample no opium was discovered. He confiscated only the prepared drug, that being most easily portable and of the highest grade, and brought it back to the important centers and sold it.

A member of the American consular service who came recently to Peking from Canton says that piracy along the rivers and canals is more extensive than ever before. The authorities are endeavoring to terminate it by giving the chiefs government offices and incorporating the ordinary pirates and brigands in the navy and army. It is evident that this time honored practice has not passed away with the Manchu dynasty.

The French legation has received news of the burning of a Roman Catholic mission church during the plundering and burning of a town in southern Honan, not far from Tsayang, where the American and Norwegian missionaries were made prisoners in September. The government has sent troops in large numbers to fight against "White Wolf," the brigand chief who is terrorizing that section of thecountry, but according to the report of another American consul, the soldiers, though sufficiently numerous, are not making serious efforts. They have been trying, ostensibly, for several months, to round up the brigands, yet walled towns are still being besieged, captured and looted by them.

A misisonary in a Honan city describes how a band two thousand strong impressed villagers to carry fuel up to the gate of a town barred against them, in order to burn down the gate so they might enter and loot the place. The villagers were literally between two fires, for when they approached the gate they were shot at from the walls by the soldiers garrisoning the town, and if they refused to advance the brigands laid them low.

Within hearing of the walls of Peking village blunderbusses can be heard nightly. By firing at intervals their old time guns, sometimes so large that two or more men are required to carry them, the villagers try to scare off the robbers. This summer a village within a few minutes walk of a group of temples occupied by some American and British families in the western hills outside Peking, was plundered by a band of mounted men and one or two villagers were shot. Much more valuable loot and even ransom money might have been obtained by an attack on the temples, but though the guns were heard nightly by the foreign women and children, they spent their summer in the hills with little fear of attack. Their confidence was due to the fact that the people, including he brigands, of this province have a great respect for the ability of the foreigner to shoot.

The temples which the foreigners occupy in the summer were headquarters of the Boxers in 1900 and several encounters with the Boxers, disastrous for the latter, took place in the nighborhood. Furthermore, a detachment of troops from one or more of the legation guards generally goes into camp in one of the group of temples. Generally each of the American companies takes a month out there at different times during the summer.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dresed herself and walked out for breakfast." Sold by L. P. Allcott, druggist.—Adv.

CITY PLANNING BOARDS MASSACHUSETTS FEATURE.

Must Be Created in All Towns Having a Population of More Than 10,000, According to Legislative Act.

City on town planning boards in Masachusetts must be created by every city and also by every town having a population of more than 10,000 at the last preceding national or state census, according to an act of the Massachusetts legislature.

There boards are required to make "careful studies of the resources, possibilities and needs of the city or town, particularly with respect to conditions which may be injurious to the public health or otherwise injurious in and about rented dwellings."

The planning boards are also required to "make plans for the development of the municipality with special reference to the proper housing of its people."

Theplanning boards are to be appointed by the mayors of cities and in towns they are to be elected by the votes at the annual town meetings. Every planning board is requirted to report annually to governing bodies of its respective city and to voters of its town, "giving information regarding the conditions of the city or town and any plans or proposals for the development of the city or town and estimates of the cost thereof."

The governing bodies of cities are authorized by the act to "make suitable ordinances, and towns are authorized to make suitable by-laws for carrying out the purpose of the act," and the governing bodies in each case "may appropriate money therefor."

DIVINE RAISES MONEY FOR EDIFICE AND GETS JOB.

Donning overalls, Rev. Herbert L. Derr of Medora has set about to build a $1,000 Baptist church at Nebo, the money for which he raised.

Rev. Mr. Derr is pastor of the church, which has a membership of twelve. Without funds enough to erect on edifice, the members congregated weekly at each other's houses but recently the carpenter-preacher declared he would undertake a campaign to procure $1,000 in contributions, enough to insure the little flock a building in which to worship.

He succeeded so well that he was also given the contract to erect the building. The population of Nebo is composed largely of Mormons.

A KINDLY RESPONSE.

Contributions Made For Blind School in China.

A short time since it was stated in the Journal that a traveler from this city in China had visited a school for blind boys managed solely by Mrs. Wilkinson, a lady from Australia, without any society aiding her. Her husband is a missionary doctor and she began her benevolent work with one boy and kept on till she now has seventy whom she feeds, clothes and houses as best she can. She also teaches them the rudiments of an education as far as possible and useful trades by which they may earn a living.

Of course her resources are meager and she has to get along in a very humble manner with little more than the bare necessities of life. The visitor from Jacksonville was so impressed with her work that he felt it would be a pleasure to many here to aid in it and accordingly was kindly permitted to tell the pupils at the State School for the Blind the story of blind boys in China and ask for them some little tokens for Christmas, an anniversary of which they may never have heard.

He then was also permitted to speak to the children of the city public schools and ask them to make the coming Christmas a giving one and while he was about it he also spoke to the Sherman school north of the city and Maple Grove school in South Jacksonville. In all he was most kindly received and was deeply gratified by the way he was treated and by the generous responses received. All deserve praise and it is impracticable to mention any individual school for all did well. Two friends also added a sum and a goodly amount with pretty tokens from the blind pupils here and an esteemed young friend in Sheldon, Mo., will make the boys in Foochow, China, feel that they have friends away in far off America.

LETTER FROM BERLIN.
(By Associated Press)

More than 21,000 German physicians from small towns and country districts have decided to follow the example of their professional brethren in Great Britain and declare a "doctor's strike" against sickness and accident insurance associations established under the imperial insurance laws. They complain against certain regulations under the laws, which they say militate against them, particularly one depriving the patient who is a member of an organization of any say in the choice of the physician by whom he desires to be treated. They object, too, to the wide spread discretion given to theorganizations in the matter of contracts with physicians.

The decision to declare a strike against these regulations was reached at a meeting in Berlin of more than 800 delegates from all over Germany.

More than two-thirds of all the Germans are members of insurance organizations, which have their own contracting physicians and the remaining medical field is over-crowded. The number of medical students in Germany has risen from 6,300 in 1905 to 14,000, an increase utterly disproportionate to the increase in population. The result is, according to statistics, that half of all the physicians have incomes less than $1,500 yearly.

The doctors of Berlin, Dresden, Hamburg and other large cities did not join in the movement, owing, it was said, to the desperate competition among them.

Berlin is not usually looked upon as an important "seaport," for almost as much water passes through its water mains as through the little river Spree, on which it is situated. The navigation interests of the German capital are so important, however, that after opening a large new harbor on the eastern side of thecity only a few weeks ago at a cost of about $8,000,000, the mupicipality has just decided to build another one on the western side which will cost almost as much. It will cover, including warehouses and grounds used for harbor purposes, 75 acres. This step is taken in anticipation of a very large increase in canal and river shipping after theopening of the new canal at Stettin, now nearing completion.

In view of its improved shipping facilities and enlarged waterways Berlin looks forward to a more rapid development of its manufacturing and commercial interests.

Victor Stoeffler, the aviator, who by setting up a new world's record of 1,376 miles for a day's flight, proved that Germany may be considered a worthy rival of France in aviatorial accomplishments, may lose the $25,000 prize which it was supposed he had won by the feat. This was offered by the committee in charge of the national aviation subscription fund for a record in excess of the hurricane flight of Brindejonc des Moulinais from Paris to Warsaw. Objection has been raised in the committee, on the ground that Stoeffler's flight was made by flying back and forth between Darmstadt and Muelhausen in Alsace. The aviators point out that the general conditions of the contest as adopted and published by the committee only require that 310 miles be covered by continuous flight in a given direction, whereas Stoeffler's flight from Posen to Muelhausen alone covered 650 miles. They are already in arms against the committee for risking the lives of competitors by appointing the long distance competition for the month of October with its foggy nights and short days.

A decision has not been anounced, but aviators fear that the committee will not allow Stoeeler the grand prize of $25,000 for a flight surpassing Brindejonc's, but will award him only $15,000, the prize for the longest flight under the regular conditions.

The "Princely Schaumburg-Lippe Sailing Fleet" has been disbanded. In spite of its high sounding title, this navy consisted only of small sailing boats which plied the inland lake called Steinhuder Meer. It was, however, an historical curiosity.

The princes of Schaumburg-Lippe have for nearly 150 years owned a little water fortress on an artificial island in the lake and maintained a sailing fleet, at first to provide communications with his castle or refuge in case of an attack, but later for the more prosaic use of excursionists. The eighteen seamen who manned the vessles were officials of the little state and wore its queer, antiquated uniform. The reigning prince finally decided that his navy was an expensive luxury and sold it to private persons. A restaurant on the island also belonging to the prince and kept up by a retired official from the little court of Buckeburg, went under the hammer as well.

Lippe-Detmold is just having a new issue of money. The royal mint in Berlin has struck off an issue of thalers (three mark pieces worth about 75 cents) bearing a new likeness of Prince Leopold IV. The coins will not be placed in general circulation, but collectors and others desiring them must apply to the princely treasuries or princely savings banks.

HERE A LONG TIME.

The venerable J. O. Hamilton was remarking yesterday that he had been in this immediate vicinity seventy-nine years, was 5 years old when he came here from Cynthiana, Ky., and wondered if there was anyone about who had been here as long when George Tandy remarked that he came here from Fayette county, Kentucky, seventy-nine years ago this fall and was at the time 25 months old. Both are good men and greatly respected by all who know them.

THE COST OF ELECTRIC POWER

LISTEN TO THIS STATEMENT

University of Illinois

Urbana, Ill., Nov. 11, 1913.

Chamber of Commerce Committee,
Jacksonville, Ill.

Replying to your letter of Nov. 6. In regard to cost per k. w. to produce current under normal conditions, it is rather difficult to state without careful examination of the conditions in your city and the installation we have laid out for you what the cost will be. Yon cannot hope to produce and deliver the energy to the switchboard in the 600 k. w. plant for less than an average of 1½ cents per k. w. hour. The price would run close to 2 cents or 2½ for the first four or five years of operation until you had picked up a major portion of the city load commercial as well as lighting. For the smaller sized plant for operating the lighting system alone of about 150 or 200 k. w. capacity, the cost would range from 2 to 3 cents per k. w. hour delivered to the switchboard.

These figures above stated do not cover the cost of delivering the energy to the consumer. From recent figures I have been compiling it would seem that figuring in the fixed charges, maintenance and repairs on the distribution system it would cost from 5 to 12 cents per k. w. hour for the energy delivered to the lamps or to the customers. The greater the amount of energy delivered over the pole line to consumers the less would be the cost per k. w. hour delivered, also the time in the day when the load was taken together with other items which make up cost of delivery of energy would have to be taken into account.

Signed,
J. M. BRYANT
1st Assistant Dept. of Electricity

Prof. Bryant was secured by the Directors of the Chamber of Commerce to review the local lighting situation. He is a man who stands high in authority on matters of public lighting. As first assistant in the department of electricity at the great University of Illinois he has occasion to make a study of these questions. The unprejudiced expert opinion is that to produce current in Jacksonville with a plant our size the cost is from 5c to 12c per kilowatt.

GIVEN SURPRISE FOR EIGHTIETH BIRTHDAY

The Venerable Mrs. R. A. Hatfield of Concord Happily Remembered.

Among the highly respected residents of Concord is the aged Mrs. R. A. Hatfield, whose many friends have for her a warm regard as was well manifested Saturday when a host of them including children, grandchildren and great grandchildren came in unannounced and treated her to a genuine surprise on her 80th birthday. The good lady was completely taken back but managed to compose herself all right and make her self-invited guests welcome and all proceeded to have a good time.

In addition to the people present a great many sent postal cards and in various ways she was shown how much she is beloved while her children contributed a purse of money. All brought well-filled baskets and a fine dinner was greatly enjoyed.

Her Sunday school class also intended to give her a surprise but the inclemency of the weather prevented. The worthy old lady will ever remember with pleasure the kind manner in which her anniversary was remembered.

Those present were Mr. and Mrs. E. F. Hatfield and son William and daughter Letta of Springfield. Mr. and Mrs. M. S. Halbin of Bluffs, Mrs. A. C. Prewitt of Slater, Mo., Mr. and Mrs. W. H. Braner and daughter Dorothy, Mrs. S. W. Braner and son Donald, Mrs. R. E. Martin, all of Jacksonville; Enoch Valentine and two daughters, Mrs. W. S. Chamberlain and son Francis and Mrs. N. W. Chamberlain and daughter Mary of Litchfield, Mrs. Mollie McRorie of Bay Side, Calif., Mr. and Mrs. Aura Valentine and Mr. and Mrs. Charles Roach and T. W. Hatfield of Concord and James Lemon of Beardstown.

LEARN THE SECRET OF KEEPING YOUNG

Good Digestion Necessary—Try Mi-o-na For Stomach Ills.

It is what you eat that causes most of your discomfort. Nearly all diseases have their origin in the stomach and bowels.

If you have coated tongue—nerves on edge, headache, heartburn, lack an appetite, and your stomach is sour, gassy and generally upset, you need Mi-o-na at once. It quickly and surely stops stomach misery. It is a digestive giving quick relief in acute stomach distress and second to none as a stomach and intestinal tonic to build up the digestive organs. It soothes the irritated membrane and increases the flow of the digestive juices os that the stomach is always ready to care for the food as nature intended.

If you over-tax the stomach and bowels they cannot properly digest your food and you are improperly nourished—your resistance is low—you are lacking in vitality—you grow old before your time.

Get a fifty cent box of Mi-o-na now—today—delays are dangerous. Always keep it with you at home or traveling. Druggist everywhere—Adv.

BOUGHT AND PAID FOR.

Next Wednesday at the Grand Opera house William A. Brady's production of George Broadhurst's "Bought and Paid For" will be presented here. It would not be possible to have a play that had been better received or more highly praised.

To every man is given the ability to create a masterpiece. To some, the ability to create a number of things so utterly fine, that each is a masterpiece, apparently. Such a man is called a genius. Such a man is George Broadhurst, and "Bought and Paid For" is the acme of his genius. This is a human drama with a terrific "punch." It is an ideal play perfectly acted. Not a superfluous line has been written in it. Not an extra scene has been created to give some particular player a chance to display a particular ability. It is an honest drama beginning logically, moving smoothly, swiftly and correctly through climax and anti-climax to a hopeful and satisfactory conclusion.

"Bought and Paid For" ran for over fifteen months at the Playhouse, New York; six months in Chicago, at the Princess theatre; and over six months at the New Theatre in London, England.

FROM THE FAR NORTH.

William Clayton arrived in the city yesterday from Sabota, North Dakota, where he has been managing the 1200 acre farm of Charles E. Henry of Woodson. He is much pleased with the country up there and expects to carry on farming on a larger scale next year. Crops were a little short this year but he is not at all discouraged and thinks it a good place for a young man. The weather was fine when he left. He left his brother and Mr. and Mrs. Shelton and daughter Faith and Miss Anderson, all well. He expects to return in two months.

A PROLIFIC FAMILY.

Peter Birdsell, residing a few miles north of Jacksonville, was in the city yesterday and said he had lived eighty-two years in this and Greene counties. He had twenty-six brothers and sisters, eleven children of whom ten are still living, and has eighty-six grandchildren and great grandchildren. This is a record rather hard to beat.

ILLINOIS COLLEGE NOTES.

The students are indebted to Mr. Felix Farrell for a quantity of marshmallows which he presented to them for use at the bonfire Tuesday evening.

Mr. J. H. Zercher, '17, has been obliged to leave college on account of illness. Mr. Zircher will go either to Texas or to the Pacific coast. He expects to continue his work wherever he may go.

William Lester Wemple, '98, of New York city, was a visitor at his home town, Waverly, last week. He was on the train with the students who were returning from the oratorical contest at Carlinville. Mr. Wemple holds a position as assistant to the attorney general of the United States.

A new Standard dictionary has been added to tre college library.

Dr. Thompson, the maneger af the Sunday School league of America, spoke to the students at the chapel exercises Tuesday morning.

President Rammelkamp will attend the semi-centennial celebration of the Gettysburg address in Springfield on Wednesday.

Miss Hazel Huffman, a student in Whipple academy, has left school temporarily on account of illness.

Professor Cole of the department of German as arrived in Munich. She reports that the German universities are restricting the privileges heretofore open to foreign students. On account of the crowd of foreign students who have been frequenting the German universities, the authorities there have decreed that foreign students snall not be allowed to register until all native students have been accommodated.

Principal Walter L. Harris of Whipple academy will attend the high school conference at Urbana at the end of the week.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make it Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will after an application of Danderine, you cannot find a single trace of dandruff or falling hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an apearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. (Adv.)

Harry Stevenson, wife and son, have arrived from California where they have been the past two years and expect now to remain in this state and move to the farm owned by Mr. Stevenson's father R. R. Stevenson of this city.

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "Just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to disolve, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 204 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

YOU WANT SERVICE

As well as style in your suit or overcoat—garments that will look as well after a season's wear as they did when new.

By keeping our customers' garments pressed free we get them in our shop often and see to it that they hold up and wear well.

You'll agree with us that between $20 and $30 is the logical price to pay. A higher price is unnecessary. Most men have already come to realize this. Never before has the demand for Popular Price Tailoring been so great. Never has our stock been so complete, so varied, so attractive.

See the new grays, browns, pin and chalk stripes; also our complete line of blue serges and cheviots.

Our $20 chinchilla overcoats can't be beat. They are thick and warm, but light in weight. You can have them made long or short just as you want them

WORLD'S LATEST FINANCIAL AND MARKET NEWS

TRADING IN STOCK MARKET IS LIGHT

MARKET IS HEAVY OWING TO LACK OF DEMAND.

Speculators Work With Caution, Being Inclined to Take Bear Side Because of Continued Weakness of Various Stocks—Scattered Buying Toward the Close Makes up Many Losses.

(By Associated Press.)

New York, Nov. 15.—Trading in stocks was light throughout the half day session which brought the week to an end and in most cases net changes were only nominal. After a firm opening the market became heavy more because of a lack of demand than from any marked pressure. Investment buyers held aloof. Speculators worked with caution, being inclined to take the bear side because of the absence of support and the continued weakness of various stocks, such as Missouri Pacific, New Haven and Lehigh Valley.

Losses were small, however, and they were largely made up on scattered buying toward the close. Lehigh Valley was heavy throughout. New Haven duplicated its daily performance recently by making a low record at 75. Missouri Pacific at 24⅞ was at the year's lowest. There was a general disposition to await developments in regard to Mexican affairs over the week end and business was restricted by this consideration. The day was barren of news with an influence on market values with the exception of further pessimistic reports from the steel trade.

The bank statement made the expected good showing. There was an actual gain in currency of more than $12,000,000 and $7,953,000 was added to the surplus.

EDUCATIONAL NOTES.

A "Society for the Instruction of Eugenics" recently founded in New York already has 200 members.

One Idaho county has more than 350 boys and girls organized in sewing, cooking, potato and corn club work.

Joliet, Ill., aims to get rid of delinquets in its schools by putting the boys too big for their classes into a special class in charge of a man teacher of forceful personality.

"In Edinburgh," says Sir James Grant, "the impression is gaining ground that physical culture comes before the humanities, and hygiene is reckoned of greater importance than higher mathematics."

When an epidemic of cholera is raging in the Philippines the authorities do not close the schools to avoid the contagion. They keep them open as centers of hygienic information for preventing the spread of the disease.

The Massachusetts state board of education maintains a teachers' registration bureau for teachers desiring positions in Massachusetts. In the past year, the first of its existence, the bureau filled 89 positions at salaries ranging from $2,700 down to $10 per week.

Native children in the Alaska schools under the United States bureau of education become so enthusiastic over the personal hygiene campaign that they frequently bring their fathers and brothers to school to have them put through the clipping and cleaning process at the hands of the teacher.

Emory and Henry College, Virginia, until recently an institution of the literary type, shows interestingly the trend of the times in its efforts to meet more directly the needs of the vicinity. Without weakening its literary departments, the college is seeking to put its young men into touch with the everyday life of the rural communities from which they come. Recently a demonstration agent was secured, to have his headquarters at the college and direct agricultural and industrial work both for the students of the college and the people of the surrounding community.

Senior students in the state normal school at Troy, Alabama, are specially trained for rural school teaching. Instead of depending on regular text books, the students use the proceedings of the conference for education in the south, which contain discussions of actual rural-school problems by those engaged in handling them. Each student is expected not merely to be familiar with rural school conditions in general, but with those of one rural school in particular. Prof. Edgar M. Wright, who is directing the work, hopes in this way to produce teachers who will be enthusiastic leaders in life in the open country.

Roy Curtis will spend Sunday with his parents in Manchester.

GOOD EXPORT DEMAND GIVES COURAGE TO BULLS

WHEAT MARKET CLOSES STEADY AT ¼C to ½C ADVANCE.

Uneasiness of December Shorts in Corn Pit Brings Decided Bulge—Wet Weather Tends to Increase Dread of a Squeeze—Cash Houses Try Oats Freely.

(By Associated Press)

Chicago, Nov. 15.—Revival of export demand gave courage today to the bulls in wheat. Accordingly, the market closed steady at ¼c to ⅜@½c net advance. Corn finished ½c to 1@1⅛c up and oats with a gain of ⅛c to ⅜@½c but provisions down 5c to 15c.

By many traders most significance was attached to large sales of hard wheat here to exporters. In the corn pit uneasiness of December shorts brought about a decided bulge. Offerings of that month were scanty and the movement from rural sources gave little comfort. Wet weather with a forecast of further unsettled conditions tended to increase the dread of a squeeze. Cash houses bought oats freely. The fact that spot was at a premioum over December made the trade forget about threats of big imports from Canada.

Provisions gave way because of receipts at the twelve leading packing centers being much more numerous than expected. Holders unloaded especially in lard and ribs.

Buy Your Piano Now!

These Piano Bargains Won't Last Always. The Piano Sale at J. Bart Johnson's Wins!

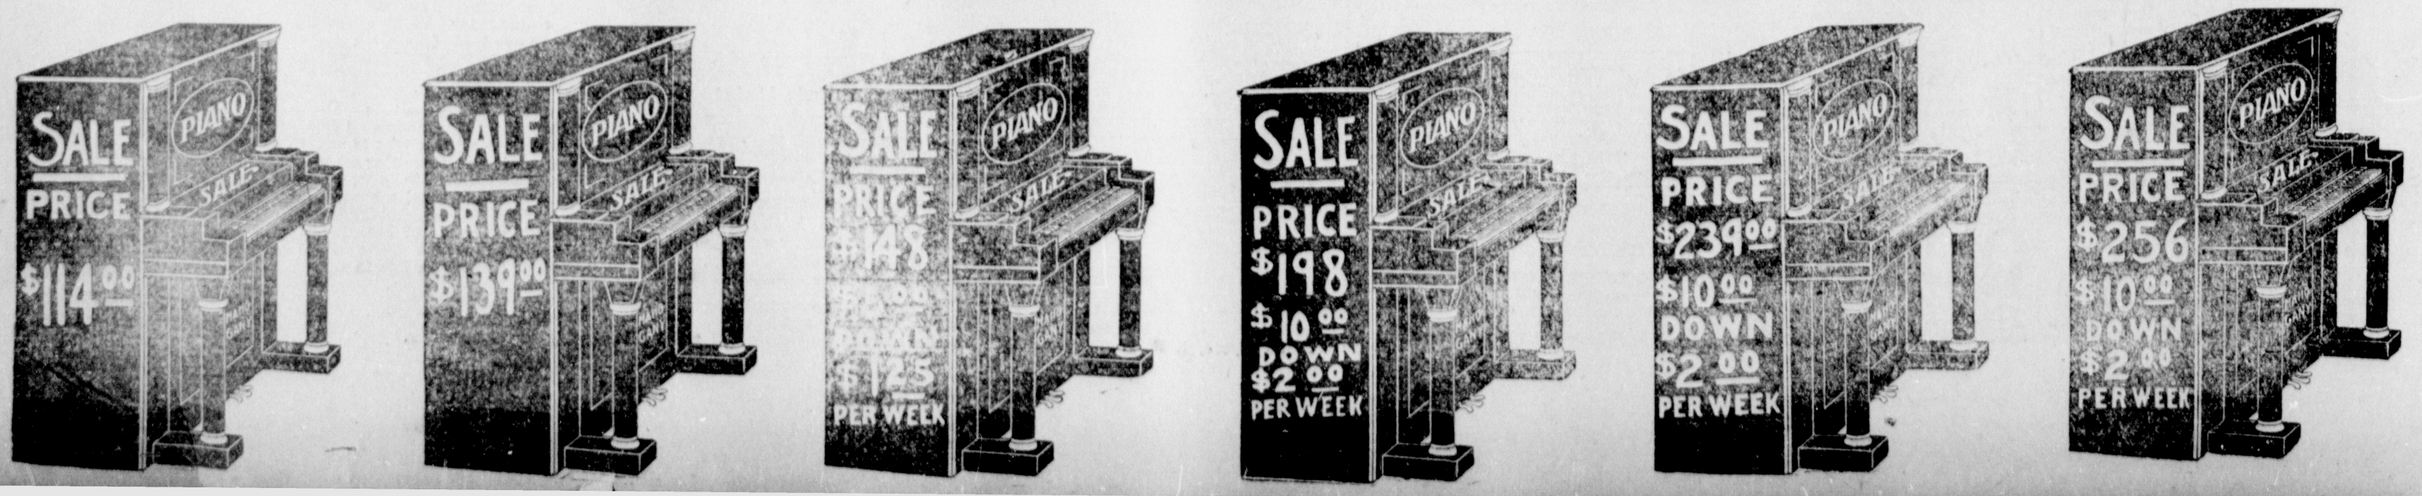

Never before during the history in Jacksonville and vicinity have as many pianos been sold in one single week. Never before have prices on high grade pianos been cut as low as now—Economical buyers have taken advantage of this cut rate piano sale and are saving a sum of money they can not well afford to lose by passing up this sale event. We need the money. Pianos of rare standard quality are going even at a little less price to those who can pay cash but reasonable terms can be arranged with responsible buyers. $10 cash will take a piano to your home. You cannot afford to wait, Mr. Piano Buyer, even though you did not contemplate purchasing an instrument for a year or so. BEAUTIFUL, BRAND NEW, HIGH GRADE PIANOS, in beautiful San Domingo mahogany, quarter sawed oak, walnut, etc., are going at prices lower than you ever dreamed of paying for standard grade quality pianos. Good used organs at $4.50, $9.75, $11.00. One nearly new high grade organ sold recently at $90.00 going at $26.50.

ILLINOIS WINS FROM LOMBARD

TAKES VISITORS INTO CAMP TO TUNE OF 12 TO 6.

College Elevens Battle on Muddy Field Before Only Small Crowd—Lombard Came Back Strong In Second Half But Could Not Overcome I. C.'s Lead.

Football enthusiasts were fully repaid for going to the much talked of Lombard-Illinois game yesterday, which was interesting and hard-fought and played on one of the wettest fields for a long time, Illinois winning by a score of 12 to 6. Illinois college students worked hard to put the grounds into shape and the half-way good condition was due to their efforts. Illinois started the scoring from the very time the ball was snapped, making their first touchdown in less than six minutes They clearly outplayed Lombard at every point of the game during the first half, making their 12 points during the first quarter. In the second half Lombard came back strong and worked like Trojans to annex the contest. Forward passes, which have been used by the team in making their long string of victories, netted them but little ground. Their only touchdown was secured after some terrific line bucks, Illinois' penalties aiding them in gaining considerable ground. The wet ground made it hard to run interference and use the forward pass and the mud horses used most any old kind of a play that looked like a good ground gainer.

Illinois' defeat of Lombard fully eliminates that team from the championship race. The fact that Wesley-lost to Millikin put Illinois further up the ladder than ever. Wesleyan won from Williams and Vashti, the leaders and Williams and Vashti cleaned up on Millikin to the tune of 33 to 0. Although Millikin won from Illinois 7 to 0 on a fluke all that remains for Illinois to do is to clean up on Williams and Vashti on Thanksgiving day which will give them a shade over all other teams for the championship.

Story of Game.

Lombard won the toss and Illinois chose to defend the west goal. Wright kicked off to Alford. Lombard returned the punt, which went to the 30 yard line where Alford recovered the ball after quarterback had fumbled it. Illinois made a couple of good gains by line bucks when a pretty forward pass was made to Stewart who went over for a touch down. He kicked out but the ball was dropped, score 6 to 0. Illinois kicked off, Lombard unable to make their gains punted, Wilson receiving the kick and ran the ball back only a short distance. Stewart was shot around end for a 12 yard gain and later added thirty more yards, thanks to some good interference. A forward pass on the 25 yard line failed as did a second attempt, the ball going to Lombard. The visitors punted to Wilson. Alford made a good gain of 14 yards and Stewart made about the same distance. With the ball on Lombard's 8 yard line, Leonard was put out of the game for slugging and Miller took his place. Stewart was pushed over for a touch down. Stewart failed to kick goal. Score 12 to 0. Illinois again kicked off and Giles returned the sphere about 10 yards. Seeing that they could not make their gains Lombard kicked to Stewart. Wilson and Stewart netted Illinois about 18 yards when the quarter ended the ball on Lombard's 32 yard line.

The second quarter started off with both teams getting penalized for off side plays. With the ball in Lombard possession, Giles kicked out of danger. Stewart, Alford and Wilson gained for their team 25 yards and at this point Stewart received an injury to his faulty leg and Gary was sent in to relieve him. Two forward passes by Illinois failed. Lombard sent half back Fiedisch through Illinois' line for a gain of 15 yards. He made another gain of 6 yards when a forward pass fell into Alford's hands. Gary gave a good demonstration of dodging with some splendid interference, making 20 yards. Illinois through Wilson and Mitchell carrying the ball worked it down to Lombard's 25 yard line when Illinois was penalized 15 yards for holding. A forward pass gave Lombard the ball. Lombard kicked to Gary, who carried the ball back 20 yards. Illinois had just attempted a forward pass when the quarter ended.

Second Half.

In the second half Illinois kicked to Lombard. Lombard had a playyer standing on the side with a grip, who got in on a forward pass, but the ball was intercepted before it fell in the trickster's hands. The Lombard men redoubled their efforts and Giles and Feidisch netted their team about 40 yards. By the use of end runs and line bucks, Fiedisch and Capt. Giles again made big gains for their team. A forward pass fell in Wilson's hands. Stewart was again sent in and he kicked to Mackin. Two forward passes by the visitors failed. By a fake play Lombard gained 10 yards. Illinois held the visitors for downs on the 25 yard line. Coach Harmon sent in Atchison to relieve Darragh at guard. Illinois was penalized 15 yards for holding. Stewart kicked to Giles. Illinois received another penalty for holding and Lombard encouraged by the ground gained redoubled their efforts by the use of Fiedisch good gains were made. Illinois made a strong bid to hold the visitors but with only a yard to gain the visitors ploughed Friedisch through for Lombard's only score. Wright failed to kick goal, score 12 to 6. Lombar kicked to Frisbie and the visitors in the next play were penalized for off side play with the ball on Lombard's 40 yard line the quarter ended.

The last quarter witnessed one of the most stubbornly fought contests ever witnessed on a wet field. The ball was worked up and down the field in rapid order, both sides resorting to kicks when their goal was threatened. In the quarter Wilson made a pretty run around Lombard's left end for a gain of 30 yards. Friedisch also made some good gains for the visitors. During the quarter Spruit went out and Lukeman in. Later on Darragh went back in to relieve Achison, who went to center for Maxey. The quarter ended with Lombard in possession of the ball, on Illinois' twenty yard line, a big gain being made by the use of a forward pass, which fell into Rosequist's hands. Illinois strengthened their defense and knowing the time was short Lombard resorted to another forward pass, which was intercepted when the whistle blew.

The following was the lineup:

Lombard		Illinois
Wright	re	Pierce
Stevens	rt	Frisbie
Wilson	rg	Darragh
Miller	c	Maxey
Shinn	lg	Russell
Uhmack	lt	Mitchell

COPIOUS RAINS WILL HELP WITH WATER SUPPLY.

Rain Fall Measured Two Inches—Water Flows Over Dam at Pumping Station For First Time Since May.

Seldom has there been in this region a more welcome rain than the one which fell Friday night and Saturday morning. In this city from the best authority gained the total fall was at least two inches as measured by several persons. George Hall, weather observer at Alexander, reports 1.68 inches while Henry Oakes at Bluffs reported 1.32 inches. West of the city the report was two inches or over and in various directions the fall was almost as good.

The valve at the Nichols park lake has been closed and it is hoped it will not be opened again till the water runs over the waste weir. Saturday morning the water was running over the dam at the pumping station and as the rain was copious west and south there is good reason to think the creek will run for quite a while. The water had not been over the dam at the pumping station since last May.

MORTUARY

White.

At four o'clock Saturday morning Mrs. Hannora White passed away at the family residence, 524 East College street. She had been ill for some nine months and death was a welcome relief from her suffering as she was prepared to go.

Her maiden name was Hannora Morrisey and she was born July 23, 1853 in Newcastle, Tipperary, Ireland and when yet quite small came with the family to this country and settled in this city where she has since lived most of the time in the same house. When a young woman she was married to William White who died fifteen years ago.

She is survived by one son, Michael and two daughters, Mary at home and Mrs. James McGrew of this city; also three sisters, Mrs. Mary James of Farlington, Kan.; Mrs. Johanna Cody of Bates, Ill.; Mrs. Margaret Anderson of Springfield; taree brothers, John Morrisey of Peoria; Michael Morrisey of Jacksonville and Patrick Morrisey of New Berlin. Also five grandchildren.

Mrs. White was a devoted mother and friends and many can testify who have known her for years, to her unceasing tenderness and constant thoughtfulness for members of her own family and for others. As a child she became a member of the Catholic church and throughout her long life was unswervingly devout and earnest.

The funeral will be conducted at the Church of Our Savior Monday at 9 a. m. and buriel will be in Calvary cemetery. Friends are requested kindly to omit flowers.

Bursch.

Word comes to the city of the death of Mrs. Mary M. Bursch, wife of Oscar Bursch at her home in Hyde Park, Mass., aged 67 years. Mr. Bursch will be remembered by older residents of the city as a former superintendent of the woolen mills of J. J. Capps and sons, a position which he held for twelve years. Her husband survives her as does her son, William O. Bursch of Lynn, Mass., and two daughters, Mrs. Frederick W. Brewster and Miss Claire L. Bursch of Hyde Park.

Have you seen the suits Garland & Co., are showing, priced at $15.00? They're dandies.

WILL GIVE A DINNER

A committee of the Ladies' Aid society of the Woodson Christian church will give a dinner at the home of Mrs. R. C. Megginson's Wednesday, the 19th, to which all the members and friends of the society are cordially invited. Come and enjoy the day with us. Mrs. Luella Henry, president.

JACKSONVILLE DOWNS BEARDSTOWN

REYNOLDS MAKES DROP KICK FROM 30 YARD LINE.

Fast Game on Cass County Soil Goes to Locals by Score of 9 to 0—Special Train Takes Crowd of One Hundred and Fifty-two.

Beardstown High school football aspirations to clean up on Jacksonville High went glimmering to the tune of 9 to 0 on their own home grounds Saturday afternoon. Jacksonville sent over a special train with 152 on board and the high school band. This crowd equalled the attendance of Beardstown. The contest with J. H. S. has been the gossip among the enthusiasts of the game in the river town for some time and the Beardstown men were keyed to a high pitch of hope. While B. H. S. had all these things passing through their heads there were eleven men from J. H. S. who were thinking along the same line and it was a case of wiring back home, "we've met the enemy and they are ours."

That Beardstown bunch was certainly in the game every moment and Jacksonville found them good opponents. They have the strongest line that the locals have met this season. Their defense is good and they handle the forward pass well. The ground being sandy was in fair shape for the contest, which was played at the I-M park.

The Jacksonville delegation was extended every courtesy while in Beardstown. The special rtain was met at the depot by a crowd of students. In the evening a dance was given in Woodman's hall in honor of the guests. The special train left about 10:30 and arrived home a 11:45. The crowd was orderly going and coming and among the number were many of the teachers, Supt. W. A. Gore and Principal C. E. Colling. The band was one of the features of the trip and they played on the train going and coming, gave a concert in the Beardstown park and played at the grounds between quarters.

How the Score Was Made.

Jacksonville made their first score in the last two minutes of play in the first quarter, by the use of straight line bucks and a forward pass, Haigh being sent over for the touchdown. Reynolds failed to kick goal. The second and third quarters were hard fought, the pigskin being chased up and down the field in rapid order, neither side scoring, although at the close of the third quarter, Beardstown had worked the oval down to Jacksonville's third yard line. Here the locals made a spectacular showing in the way of defense, Beardstown being held for downs. J. H. S. punted out of danger and there was nothing else doing the last three minutes of play. In the fourth quarter, Jacksonville by end runs and line plunges got the ball on Beardstown's thirty yard line. Here Reynolds made a fine drop kick the ball going exactly between the goal posts. This made the score 9 to 0.

All the Jacksonville men put up a good game and during the contest H. Willamson, Whitlock and Pyatt, substitutes, were used. Knight proved a star for Beardstown. A peculiar thing about the contest was that both sides were only penalized five yards each during the entire game.

The following is the line-up:

J. H. S.	Position.	B. H. S.
L. I. Wood	r. e	Buchheit
L. P. Wood	r. t.	R. Ruppel
Briscoe	r. g.	Wocker

H. ENSIGN SCOTT DIES IN EUREKA SPRINGS SATURDAY

Had Been Seriously Ill For Some Time—Remains Will Be Brought Here Today.

Relatives in the city received word Saturday announcing the death of Horten Ensign Scott, who passed away Saturday morning at 10:30 o'clock at Eureka Springs, Ark. Four years ago Mr. Scott underwent an operation for appendicitis and two years ago underwent another operation, this time for gravel. He recovered from each of them but during the past summer his health began falling and about two weeks ago he went to Eureka Springs. The change did not benefit him, however, and he became generally worse. Word was received Friday that he was dying.

Horten Ensign Scott, youngest son of Eneas and Lois Scott, was born December 26, 1857, and at the time of his death had attained the age of 55 years, 10 months and 19 days. He was born and reared on the old homestead, three miles west of Franklin. Mr. Scott was a very successful farmer, but about fifteen years ago retired and moved to Franklin where he has since resided. He is survived by his wife, one adopted daughter Florence; two brothers: Jonie W. Scott and Sylvanus, both of Franklin, and two sisters', Mrs. Annie Dalton of Nevada, Mo., and Mrs. Eveline Rawlings of the Durbin neighborhood.

Mr. Scott was a man widely known in Morgan county and highly respected by his large circle of friends for his upright character and honesty.

The remains will be brought to this city today from Eureka Springs, having left that place Saturday afternoon at 4:30 o'clock. Arrangements for the funeral will be announced later.

FIRST SERVICE IN NEW M. E. CHURCH

The first service in the new Methodist church at Franklin was held last night when Bishop Quayle gave a lecture on "Abraham Lincoln." A piano solo was given by Miss Lucile Olinger. Several people who expect to attend the dedication exercises arrived in Frankin yesterday. The bad condition of the roads will no doubt keep a large number away, yet the interest is quite keen and the exercises today and during the week are of such a splendid kind that goodly crowds will be in attendance despite the weather. The program will be carried out as recently published in the Journal.
